The Courses of Study.

The outlines of the three courses of study in the Collegiate and Preparatory Departments of the institution explain themselves. It is believed that these courses will continue to commend themselves as thorough, conservative and yet progressive, and as being abreast of those pursued in the best of our sister institutions.

The CLASSICAL COURSE is the best adapted to the thorough and symmetrical development of all the intellectual powers of the student, and will graduate men fully equipped for the highest demands that may be made of college-bred men anywhere. The LATIN-SCIENTIFIC COURSE is adapted to those who wish to substitute French or German for Greek, and who have to abridge their curriculum one year in the Preparatory Department. The ENGLISH-SCIENTIFIC COURSE provides as useful a training as can be afforded, without Latin and Greek, in the prescribed limits, for those who for any reason are unable to pursue either of the other courses of study. The Professors in charge of the various departments endeavor to employ the latest and most approved methods of class-room drill, and to inspire the students with the spirit of modern scholarship.

The Preparatory Department.

The facilities of the Preparatory Department have been greatly increased by the erection of the Fayerweather Annex. This department thoroughly prepares students for college, and also provides sufficient facilities for the instruction of a large and worthy class of young people who desire academic instruction, but do not wish to devote the necessary time and means to secure a collegiate education. For the special benefit of teachers and irregular students, classes are formed each term in the common branches,

and in Algebra, Latin, Greek and Pedagogy. Special attention is given to the training of teachers and of those preparing to teach.

This department is under the special supervision of the Principal, and most of the work of the department is done by him and three assistant teachers. Other members of the Faculty participate in the work of instruction. With the exception of the Seniors of the Classical Course, the students of this department are required to study under the supervision of a teacher.

Maryville College.

HISTORY.

Maryville College is a venerable institution. It this year celebrates its seventy-fifth anniversary, for it was founded in 1819. It was born of the moral and spiritual needs of the earliest settlers of East Tennessee, chiefly Scotch-Irish Presbyterians, and was designed to educate for the ministry men who should be native to the soil. The grand motive of the founder may be stated in his own words: "LET THE DIRECTORS AND MANAGERS OF THIS SACRED INSTITUTION PROPOSE THE GLORY OF GOD AND THE ADVANCEMENT OF THAT KINGDOM PURCHASED BY THE BLOOD OF HIS ONLY-BEGOTTEN SON, AS THEIR SOLE OBJECT." Inspired by such a motive, Rev. Isaac Anderson, D.D., gathered a class of five in the fall of 1819, and in prayer and faith began the work of his life. In forty-two years the institution put one hundred and fifty men into the ministry. Its endowment, gathered by littles through all these years, was only sixteen thousand dollars.

Then came the Civil War, and suspended the work of the institution for five years, and the College came out of the general wreck with little save its good name and precious history.

After the war the Synod of Tennessee, moved by a spirit of self-preservation and by a desire to promote Christian education in the Central South, resolved to revive Maryville College. The institution was re-opened in 1866. New grounds and new buildings were an imperative necessity. To meet this need, sixty-five thousand dollars were secured, and the College was saved from extinction. In 1881 a few generous friends contributed an endowment fund of one hundred thousand dollars. Three years ago Daniel B. Fayerweather bequeathed to the College the sum of one hundred thousand dollars, to which munificent bequest the residuary legatees added the generous amount of fifty thousand dollars. Of this one hundred and fifty thousand dollars more than half has already been received. These magnificent donations have enabled the institution to enlarge its work and to enter upon a new era of usefulness

ANDERSON HALL.

and influence. More than nineteen hundred students have been in attendance since the war. Of these, one hundred and thirty-five have graduated in the Classical Courses. More than fifty of these Alumni have entered the ministry. Nineteen Alumni and undergraduates have been or are missionaries in Japan, China, Corea, India, Persia, Syria, Africa and Mexico. Several are laboring in missions on the Western frontier. All the Alumni are engaged in honorable pursuits. Students who have gone from the College to theological, medical and legal schools, have usually attained a high rank in their classes. Seven of the seventeen annual first-honor medals offered in the Medical Department of the University of Tennessee, at Nashville, were won by former students of Maryville College. A goodly number of the Alumni are now studying in theological seminaries.

The necessary expenses are so phenomenally low as to give the institution a special adaptation to the middle class and to the struggling poor—the great mass of the surrounding population.

The privileges of the institution are open alike to all denominations of Christians.

LOCATION.

Maryville is a pleasant and thriving town of about two thousand five hundred inhabitants. There is no saloon in Blount county. Maryville is widely known "as the town of schools and churches." It is the present terminus of the Knoxville and Augusta Railroad, and is sixteen miles distant from Knoxville. Knoxville is approached from the South and West via Chattanooga, or Dalton, or Marietta; from the North and Northwest via Junction City (Danville) and Jellico, or via Harriman Junction, or via Cumberland Gap; from the Southeast, via Asheville; from the Northeast, via Lynchburg and Bristol.

GROUNDS AND BUILDINGS.

The College grounds consist of two hundred and fifty acres, and for beautiful scenery are not surpassed by any in the country. They are elevated and undulating, covered with a beautiful growth of evergreens and with a noble forest, and command a splendid view of the Cumberland mountains on the north, and of the Smoky mountains on the south.

The location is as remarkable for its healthfulness as it is for its

beauty. The campus affords the choicest facilities for the development of athletics.

On these grounds there are seven buildings, which were erected at a cost of eighty-four thousand dollars.

The central building is adapted to college purposes and is used exclusively for them. In honor of the founder of the institution it is called ANDERSON HALL. The large addition to this Hall, THE FAYERWEATHER ANNEX, forty by ninety feet in size, is occupied by the Preparatory Department, and has added greatly to its success. BALDWIN HALL, named in honor of the late John C. Baldwin, of New Jersey, is occupied by the young ladies. Not long since it was thoroughly renovated, without and within, and with its new paint, papering and wainscoting, presents a very attractive appearance. The reception parlor has recently been refitted. In this Hall ample and pleasant accommodations for board are provided by the Coöperative Boarding Club for all the members of the institution who choose to board there. MEMORIAL HALL is occupied by the young men. It has recently been refitted and papered throughout, and now compares favorably with Baldwin Hall in neatness and comfort. In the basement of Memorial Hall are ten kitchens for the benefit of students who may prefer to board themselves. These Halls are large and convenient, well lighted and ventilated, and will accommodate one hundred and thirty students. The College buildings are connected with the electric light system of the town. The College also owns two PROFESSOR'S HOUSES. The LAMAR MEMORIAL LIBRARY building is spoken of on another page. THE PRESIDENT'S RESIDENCE was provided in 1890 by a munificent gift of Mrs. Jane F. Willard. It adorns College Hill and is a valuable property. It bears the following inscription:

PRESIDENT'S HOUSE,
ERECTED AS A MEMORIAL OF HER HUSBAND,
SYLVESTER WILLARD, M.D.,
BY
MRS. JANE F. WILLARD,
1890.

Work has been begun on the extensive system of walks and drives that has recently been surveyed and mapped out by a competent civil engineer. It is expected that before many years the grounds, so beautiful by nature, will be rendered doubly attractive by art.

ADMISSION TO THE COLLEGE.

Candidates for admission to the Freshman Class that have taken their preparatory course elsewhere, will be examined in the studies pursued by the Senior Class of the Preparatory Department of this College, or in their equivalents, unless they bring certificates that will be satisfactory to the Faculty.

Candidates for admission to the Sophomore, Junior and Senior Classes are examined in the studies that have been pursued by the class which they wish to enter, or in others equivalent.

Those bringing certificates of dismission from another college may, upon proof of their qualifications satisfactory to the Faculty, be admitted to a corresponding standing in this College.

Those students who are absent from their classes for a part of the year must sustain a satisfactory examination in the studies pursued by the class during their absence before they can reënter it.

Students who desire to pursue only a part of the studies of any course laid down in this catalogue may be allowed to do so in connection with the regular classes by special permission of the Faculty. Candidates for admission and students who in any examination receive conditions, will be required to cancel them within the time designated by the Faculty.

Every student who offers himself for admission must present a testimonial of good character from some responsible person.

MUSIC.

Provision is made so that all students may attend a class drill in Vocal Music. These classes meet every alternate day. The results of the drill in this department during the past year have been most gratifying.

Miss Flora Henry, B.L., has charge of the department of Instrumental Music. Her pupils have been making excellent progress during the past year. A pleasant room in Anderson Hall has been neatly fitted up by the College for the Music Room, and an expensive and rich-toned piano placed in it. During the past year another piano has been purchased, and now occupies a room adjacent to the principal Music Room. There is also a piano in the Music Room at Baldwin Hall that is used by the young ladies of that Hall in their daily practice. The following students have taken instrumental music under Miss Henry during the past year:

Della Anderson, Estella Bell, Mary Bruce, Jessie Chandler,

E. H. Chapin, Stella Crawford, Etta Fields, Minnie Freeman, Annie Goddard, Ilia Goddard, Rena Goddard, Myrtle George, Addie Kidd, Nettie Lord, Addie McNutt, Nora McNutt, Mary McGinley, George Malcom, Jennie Mathes, Augusta Muecke, Anna Newby, Boyd Parker, Emma Parks, Ida Parsons, Zidany Sexton, Arthur Tedford, Edward Traub, Maribel Turnbull, Sydnie Turnbull, Wallace Turnbull and Sophia Young.

RHETORICAL DRILL.

All students of the College, meeting in different classes, participate in the weekly rhetorical exercises. One essay and one declamation each month are required of all. By means of text-books and class-room work students are given an opportunity to acquire a scientific knowledge of the principles of vocal expression. Practice is given to exercises that promote voice power, clear articulation, correct modulation, and compass and purity of tone.

ELECTIVE STUDIES.

Any student may, if the Faculty consent, pursue any study not in his course, provided always that it does not interfere with his regular work.

Whenever a class of sufficient size can be formed, a year's instruction in Hebrew will be given.

Spanish is an elective study. Several students have taken it under Prof. Wilson during the present year.

DEGREES.

The Degree of BACHELOR OF ARTS is conferred upon all graduates of the Classical Department. The Degree of MASTER OF ARTS is conferred upon any BACHELOR OF ARTS who has been engaged in literary or scientific pursuits for no less than three years since his graduation, and who has during that period sustained a good moral character.

The Degree of BACHELOR OF LETTERS will be conferred upon those who have completed the Latin-Scientific Course of Study.

The Degree of BACHELOR OF SCIENCE will be conferred on graduates of the English-Scientific Department.

Students who do not take a regular course, may, upon a satisfactory examination, be granted a certificate with regard to their proficiency in the studies they have pursued.

THE WALK VIEW.

The following degrees were conferred at the last annual Commencement, May 25, 1893: A.B.: James Richard Burchfield, John Quincy Durfey, Frank DeArmond French, David Riley Haworth, John Henry, Charles Marston, Thomas Judson Miles and Mary Katherine Caldwell. B.L.: Mabel Ina McNeal, Mary Roberts and Ocey May Walker. B.S.: Samuel Steele Hart. The honorary degree of D.D.: Rev. Calvin A. Duncan, of Jonesboro, Tennessee, and Rev. John Clarke Hill, of Belvidere, Illinois.

GRADING.

A uniform system of grading is employed, upon the results of which depends the promotion of the student from one class to another.

The Faculty meet every week of the college year, and receive reports of the work done in all the departments and of the delinquencies of individual students. Every month a record is made of the standing of each student, which is sent to his parents or guardian at the end of each quarter.

RELIGIOUS EXERCISES.

The College is preëminently a religious institution. All its instructors are in deepest sympathy with the doctrine that the culture of the soul is of the first importance. The history of the past has been one of gracious revivals. Besides the daily worship conducted in the Chapel, religious services are held every Tuesday evening, at which a professor of the College presides. The Y. M. C. A. and Y. W. C. A., established and conducted by the students, exert a most salutary influence upon the entire College. The Y. M. C. A. meets in its new room in the FAYERWEATHER ANNEX. The Y. W. C. A. meets in the parlors at BALDWIN HALL. The past year has been one of prosperity in the history of these Associations. The officers of the Y. M. C. A. are: President, Robert C. Jones; Vice-President, I. A. Gaines; Corresponding Secretary, George Hafley; Recording Secretary, R. S. Boardman; Treasurer, Frank H. Marston. The officers of the Y. W. C. A. are: President, Miss Mary E. Caldwell; Vice-President, Miss Cora Caldwell; Recording Secretary, Miss Nellie McReynolds. A building for the Y. M. C. A. is greatly needed. Combined with the much-needed gymnasium, it would be a Godsend.

BIBLE STUDY.

Systematic study of the English Bible is part of the permanent College curriculum. During the past year all the professors and instructors have had weekly classes for the study of the Scriptures. The interest in the classes is deepening every year. It is expected that every part of the Word of God will be brought under careful examination. The text-book employed has been Steele's Outlines of Bible Study. A generous gift of the Misses Willard—$200, to be expended in providing text-books and other aids for Bible study —has been of great assistance in developing this department of study. In the Sophomore and Junior years of the Classical Course the Bible study is devoted to the New Testament in Greek.

SOCIETIES.

The four Literary Societies connected with the institution are of the greatest benefit to those who faithfully avail themselves of the advantages they offer. The BAINONIAN, established in 1875, and the THETA EPSILON, established during the present year, are composed of young ladies; the ATHENIAN, established in 1868, and the ALPHA SIGMA, established in 1882, are composed of young men. Three of these organizations have neatly furnished rooms—the BAINONIAN in the FAYERWEATHER ANNEX, the others in ANDERSON HALL—where they meet every Friday night to engage in debates and other literary exercises. All the societies give a public mid-winter entertainment. During the past three years the ATHENIAN and the ALPHA SIGMA Societies have each sustained "Junior" Societies for the special benefit of the less advanced students. The ADELPHIC UNION LITERARY SOCIETY, which is composed of the Societies already mentioned, gives an annual public entertainment during Commencement week.

THE LAMAR MEMORIAL LIBRARY.

The Lamar Memorial Library Hall was erected in 1888 at a cost of five thousand five hundred dollars, which amount was generously provided by three friends of Professor Lamar and of the College. The building is a model in every respect. It is a noble and fitting monument. The large memorial window contributed by the brothers and sister of Professor Lamar holds the central position.

The Library itself is now one of the largest in East Tennessee.

The Lamar Library.

Interior of the Lamar Library.

Several hundred volumes have been added during the past year. The entire number of books now on the shelves is over ten thousand. A reference alcove is open six hours every day, while the entire Library is open three hours every day for the drawing of books. The advantages of the Library are entirely free to the students of all the courses. The results of the use of the Library are manifest in the increased literary culture and general information of the students, and in their better preparation for their forensic exercises.

The Librarian gratefully acknowledges the following donations received during the current year: Maryville College Club of Japan, $13.50 and nine books; Rev. A. N. Carson, D.D., interest on note, $10.50; Rev. W. H. Bates, 151 books and $2; Mrs. Eliza M. Smith, twenty-nine books; Prof. LeRoy Warfel, eleven books; Rev. Dr. S. W. Boardman, three books and curios; John Collins, Tabular View of Numerals; Adair Welcker, one book; University of Chicago, one book; Harvard University, one book; Revs. T. T. and J. M. Alexander, one book; Mrs. Rev. Dr. R. W. Patterson, one book; Prof. S. T. Wilson, one book and loan of Cabinet of Curios; Hon. John C. Houk, M.C., many favors; Departments at Washington, many books; many unbound catalogues and pamphlets from different donors.

JAMES R. HILLS LIBRARY.

During the past six years the students have enjoyed the privileges of the James R. Hills Memorial Loan Library. By a fund of six hundred dollars, generously contributed by Miss Sarah B. Hills, of New York, the College is enabled to rent the text-books used in the institution to those who cannot afford to buy them. The rate charged per term is one-fifth the wholesale price of each book. The income of rentals is devoted to supplying new books as they are needed. The usefulness of this library can hardly be overestimated.

JOHN C. BRANNER LIBRARY.

Three years ago John C. Branner, Ph.D., State Geologist of Arkansas, gave another proof of his generosity and friendship to the College by establishing a Loan Library of the text-books used in the Natural Science Department. He contributed one hundred

dollars for this purpose. The books in this library are under the same regulations as are those of the Hills Library.

THE MISSES WILLARD LIBRARY.

Through the generosity of the Misses Willard, of Auburn, N. Y., the text-book employed in the Bible classes is also provided for rent at a nominal charge.

APPARATUS.

To the liberal supply of chemical and physical apparatus previously on hand there have been made important additions during the past year, over one hundred dollars having been spent for chemical apparatus alone. The needs in this line are still great, and we call attention to the splendid opportunity here offered to benefactors and friends of the College to increase still further its facilities and usefulness.

THE NATURAL SCIENCES.

The order of studies in this department has been re-arranged and, we believe, greatly strengthened. The student is taught to perform experiments for himself, and to carry on his work of investigation in a careful and logical manner from the first.

The work of the past has proved the superiority of laboratory methods over that of reciting descriptive texts alone. The time allotted to any branch is judiciously divided between experimental and descriptive work.

It is the aim of this department to furnish ample opportunity for such kinds of work and for the use of such methods as will make the student careful, systematic and thoughtful, and at the same time enable him to see more clearly the hand of the Creator in every form of nature.

One of the paramount needs of Maryville College is funds for the erection and equipment of a building for the specific use of the department of the Natural Sciences.

May not this be a God-given opportunity for some philanthropic man or woman to assist the cause of Christian education in this beautiful, but struggling, South Land?

MUSEUM.

A valuable museum of specimens of large variety is already owned by the College. These specimens facilitate greatly the study of the Natural Sciences.

A fine collection of relics and curios from our own and foreign lands is included in the museum.

These are a great aid as illustrations to history and travel.

Constant additions are being made to the museum. Among the most recent and valuable was the contribution to the department of geology by Mrs. Bates of New York. This is known as The Bates Collection. It is well classified and occupies a prominent place in the museum.

The College takes a just pride in calling attention to these facts, at the same time soliciting further contributions for greater efficiency in our work of training young men and women for higher and more responsible positions in life.

ALUMNI ASSOCIATION.

This Association was formed in 1871, and holds its annual meeting on Thursday of Commencement week. The officers for the present year are as follows: President, Prof. J. H. M. Sherrill, '88; Vice-President, Mrs. Annie Moore Mason, '88; Secretary, Rev. Prof. S. T. Wilson, '78.

ATHLETIC ASSOCIATION.

This Association, organized to develop and systematize athletic sports and gymnastic exercises, has had a prosperous year. Manly men are the leading spirits in the organization. Mrs. Cyrus H. McCormick, of Chicago, gave great encouragement and help to the Association by a donation of $100. The officers are as follows: President, Robert C. Jones; Vice-President, Clement E. Wilson; Secretary, Robert P. Walker; Treasurer, Harvey B. McCall.

TERMS AND VACATIONS.

There are two terms in the collegiate year, the first extending from the first of September to about the 23d of December, and the second from the first of January to the last Thursday of May.

EXPENSES.

The endowment enables the College to make its charges very moderate. Students rooming in College buildings each pay for room rent $3.00 per session, or $6.00 for the year. The tuition bill is $5.00 per session, or $10.00 for the year. The heat bill in the Halls for the first term is $2.00; for the second term it is $3.00. No other charges except for music, short-hand, type-writing, and advanced book-keeping. There are no incidental fees.

No deduction will be made for absence at the beginning and the close of the terms. College bills must be paid invariably in advance. Until this condition is complied with, no one can become a member of any of the classes. All students who wish to room in Memorial Hall are required to make a deposit of fifty cents with the Janitor. This sum is a pledge that the room taken will not be abused, and it will be returned to the student at the end of the term if no damage has been done the room.

Heat bill in Memorial and Baldwin Halls . . .	$5 00
Lights and washing, per term, about	6 00
Board in the Coöperative Boarding Club, per week, about.	1 25
Board in private families, including furnished room, fuel, lights and washing, per week	1 50 to 3 00
Music—Piano, organ, per quarter (twenty lessons)	5 00
Use of piano, per term	3 00 to 5 00
Type-writing, higher book-keeping, and short-hand, for each	5 00

The Coöperative Boarding Club is spoken of below.

Good and convenient kitchens, furnished with cooking stoves and tables, are provided for such students in Memorial Hall as may prefer to board themselves. The College does not furnish cooking vessels with the stoves. Students whose circumstances require, may unite in clubs of two or more and board themselves at $1.00 per week.

The rooms in Baldwin Hall are furnished with stoves, bedsteads, wash-stands and tables. The rooms in Memorial Hall were once furnished by the College, but hereafter the young men must

BALDWIN HALL.

provide any article that may be missing. Students must supply their own bedding.

The entire expense for the students for board, tuition, room rent, fuel, light and washing, for the collegiate year, will be from $60.00 to $120.00. This estimate is made on the supposition that two students occupy one room.

STUDENTS' COÖPERATIVE BOARDING CLUB.

The Students' Coöperative Boarding Club, formed at the beginning of last College year, and placed under the efficient charge of Mrs. A. A. Wilson, of the Mt. Nebo summer resort, has again been very successful in furnishing good board at a very low rate. The actual cost of the board is found at the end of each month, and ***the average price has been less than $1.20 per week during the year.*** The students have shown their appreciation of the Club, and more than one hundred and thirty-five have belonged to it. The young ladies have the privilege of doing a certain amount of work, and receiving credit for it, thus materially reducing the cost of their board. It is doubtful whether any other College in the South can offer such good board at such low rates.

THE STUDENTS' FUND.

Recognizing that one of the pressing needs of the College is scholarships, twenty-one friends of the College contributed $477, last year, to form what was called the Students' Fund. This money was placed at the disposal of the Faculty with the understanding that it should be used to help needy and deserving students, and that those aided should work out the amount received upon the College grounds at the rate of seven and one-half cents per hour. Thirty-eight students, during the year, have earned money from this fund by doing faithful and conscientious work upon the Campus. It is hoped that a larger number of the friends of the College will become interested in this plan for aiding worthy students, and that an increased sum may be raised for this purpose for the coming year.

ABSENCE FROM THE COLLEGE.

It is very important that students should be present at the beginning of each term and continue to the end of it. Parents

are requested not to withdraw their sons and daughters towards the end of the year, without consulting the Faculty. Only in cases of extreme necessity should a student leave his studies just before the close of the collegiate year. Rooms in the College buildings will be reserved especially for those who intend to remain to the end of the year.

ADMINISTRATIVE RULES.

Students are not allowed to keep firearms in their rooms.

The use of tobacco on the College grounds and in the College buildings is forbidden, and no student addicted to its use will be allowed to room upon the College premises. One violation of this rule will be deemed sufficient to exclude a student from Memorial Hall.

All unexcused delinquencies are registered; and when the number amounts to fifteen, notice thereof is given to the student, and to his parents or guardian. When the sum of unexcused delinquencies and demerits amounts to twenty-five, the student ceases to be a member of the College. A delinquency is a failure to perform any College duty.

Students are also dismissed whenever, in the opinion of the Faculty, they are pursuing a course of conduct detrimental to themselves and to the College.

Students are not allowed to absent themselves from the College without permission from the Faculty.

Students are not permitted to engage in dramatic entertainments, and must secure special permission before engaging in any entertainment outside the College.

Students from other institutions cannot be admitted into this College unless honorably dismissed by their former instructors.

Prayers are attended in the College Chapel in the morning, with the reading of the Scriptures and with singing; and the students are required to attend public worship on the Sabbath, and to connect themselves with a Bible Class in some one of the churches in town.

BEQUESTS AND DEVISES.

Since each State has special statutory regulations in regard to wills it is most important that all testamentary papers be signed, witnessed and executed according to the laws of the State in which the

testator resides. In all cases, however, the legal name of the corporation must be accurately given, as in the following form:

"I give and bequeath . . . . to the 'BOARD OF DIRECTORS OF MARYVILLE COLLEGE,' at Maryville, Tennessee, and to their successors and assigns forever, for the uses and purposes of said College, according to the provisions of its charter."

SPECIAL NEEDS.

Some of the especial needs of the College are a Dining Hall, a building for the use of the Y. M. C. A. and for a Gymnasium, and a building and equipments for the Department of Natural Sciences, and scholarships to aid needy students.

PRIZES.

A gold medal has been offered by a friend to the student in the Freshman or Sophomore Classes in the Classical and Latin-Scientific Courses, who shall have the highest average grade in the regular studies of the year. A gold medal has also been offered by Hon. Will A. McTeer to the student in the Preparatory Departments of the Classical and Latin-Scientific Courses who shall have the highest average grade in the regular studies of his year. These prizes will be conferred at Commencement. The winners of the prizes last year were: College medal, R. Sherman Boardman; Preparatory medal, Miss Sara M. Carnahan.

THE CARSON ADAMS FUND.

This fund, amounting to about seven thousand dollars, was bequeathed to the College by the Rev. Carson W. Adams, D.D., of New York, who died October 12, 1887. "This fund is to be kept in perpetuity by the Trustees of said College, and to be called the CARSON ADAMS FUND. The income from it is to be expended in paying the tuition fees of indigent students, male or female." All applications for aid from this fund must be made in writing to the College authorities, and be accompanied by satisfactory proofs of character and needy circumstances on the part of the applicants.

THE GEORGE HENRY BRADLEY SCHOLARSHIP.

A scholarship of $1000, the income of which is to be used in aid of needy students, has been founded by Mrs. Jane Loomis Bradley, of Auburn, N. Y., to be called the "George Henry Bradley Scholarship," in memory of the only son of the donor and of the late Silas L. Bradley, President of the Bank of Auburn.

It is hoped that this may be followed by a goodly number of such scholarships. They are much needed.

BUSINESS DEPARTMENT.

During the past year Prof. Warfel has conducted classes in type-writing and advanced book-keeping, while Prof. Waller has had a class in Munson's system of shorthand. Classes will be formed in these branches at the opening of the fall term.

THE NEW HEATING SYSTEM.

During the past year a most complete and satisfactory system of heating and ventilating the College buildings has been installed at an expense of $10,000.

All the rooms of Anderson Hall, Baldwin Hall, Memorial Hall and the Lamar Library are heated and ventilated by the "Fan" or Plenum System.

A boiler house has been built between Anderson and Memorial Halls, and in this house two sixty horse power boilers have been placed, together with a receiver and a pump for returning the condensed water to the boilers.

Steam is carried in pipes placed under ground to the basements of the different buildings, into batteries of radiators or coils of steam pipes placed closely together.

Fresh air is driven over these coils of steam-heated pipes by means of a large fan operated by an engine, and the air thus heated is forced into galvanized iron pipes and distributed to the different rooms. Sufficient heated air is forced into every room to charge the air in the room four times an hour, and ventilating ducts allow the vitiated air to escape.

The President's Residence.

Interior of the President's Study.

The action of this system does not depend upon atmospheric conditions, direction or force of the wind; and by forcing fresh, heated air under pressure to every room, uniform results are secured.

This system of heating and ventilating not only diminishes the fire risk, but is conducive to health, especially to those who room in Memorial and Baldwin Halls.

SYNODICAL EXAMINING COMMITTEE.

The Rev. J. T. Cooter, Hon. J. P. Smith, Revs. R. R. Sutherland, D.D., W. A. Ervin and W. J. Trimble, D.D., compose the committee appointed by the Synod of Tennessee to attend the annual examinations of the College for the current year.
